OPTIMAL SOLUTION
HARVEST BELTS® - AGRICULTURE BELTS
by „STOMIL SANOK” S.A.

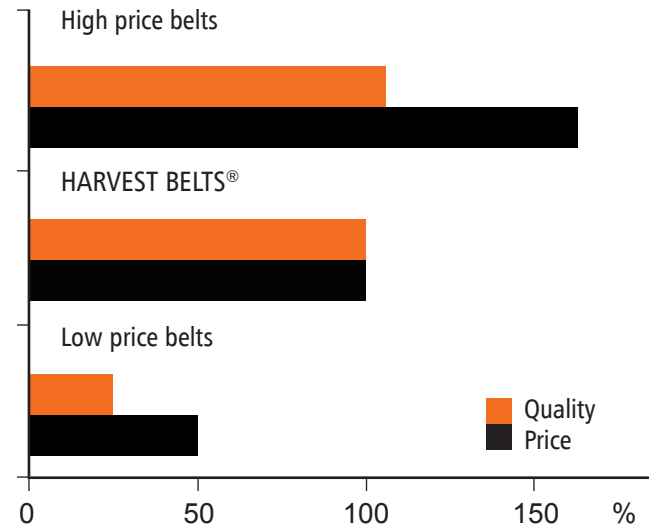

- ✓ HARVEST BELTS® is a line of agricultural belts produced by „STOMIL SANOK” S.A.
- ✓ It has been developed by the specialists in agriculture motion drives for demanding users of agricultural machines.
- ✓ Each belt is carefully selected in terms of dimension and construction to the drive it is to work in.
- ✓ Advantages of using HARVEST BELTS®:
 - Confidence of applying the right belt to the drive
 - Confidence of long faultless performance ¹
 - Saving of time and money

Our tests proved that during the time of faultless work of HARVEST BELTS®, other, lower price belts must be replaced from 2 up to 9 times!

¹ If the principles of proper use of belts are observed.

✓ Price - quality relation

✓ Table of average costs of application of HARVEST BELTS® and cheaper products.

Parameter	HARVEST BELTS®	Other, cheaper product
Cost of purchasing	1x belt price	1x belt price
Frequency of replacing the belt*	-	2 - 9
Time for replacement work (min)	0	30 - 270
Combine idle time (min)	0	30 - 270
Real cost of using the belt	1x belt price	2-9 x belt price + replacement costs + cost of combine idle time

* during the time of faultless work of HARVEST BELTS®
